

After our festive celebration of the 60th NMR-DG, we now invite the Dutch NMR community to join us for another special meeting in the charming and vibrant city of Rijssel / Lille!

We are excited to co-organize the next **France-Belgium-Netherlands-Luxembourg** joined Magnetic Resonance Conference to be held in **Lille, France, from Tuesday June 2 to Friday June 5, 2026**, at the LILLIAD Learning Center Innovation building (<https://lilliad.univ-lille.fr/>) located on the campus of the University of Lille.

The meeting will bring together experts from four countries across all fields of magnetic resonance and features exciting keynote lectures from invited speakers: **Malene Ringkjøbing Jensen, Dominik Bucher, Marie Poirier-Quinot, Mario Chiesa, Carmela Aprile, Arno Kentgens, Laura Castañar-Acedo and Jannie Wijnen.**

Additional **44 slots will be reserved for oral presentations selected from abstracts**, particularly suited to early career researchers, including Master's students, PhD candidates and recent graduates. Thanks to the generous support of our sponsors, a number of scholarships covering the registration fees for young participants will be available.

Please visit the conference's website to **register** (<https://fbnl-mr-2026.sciencesconf.org/>) and follow updates on the program.

See you all very soon in Lille!
